Education

Columbus State University
Columbus, GA
I attended CSU from Fall 2017 to Spring 2020. I was a transfer student and graduated with a Bachelor of Science majoring in Computer Science focusing on Cybersecurity. I maintained a 3.23 GPA. During my enrollment, I concentrated on Cybersecurity and Software Systems. Coursework was primarily focused on programming and analyzing networks and vulnerabilities.

Objective

Resourceful and highly motivated individual seeking role in an organization where I can utilize my technical and social skills to assist the growth of the organization while also gaining knowledge, proficiency, and versatility.

Experience

March 2016 – August 2016

Cap Team Associate • Stocker • Walmart Inc.

This position allowed me to develop my social skills within a professional setting. I worked in an environment that placed a heavy emphasis on teamwork while I also provided customer service. Completing tasks such as stocking, organizing the stockroom, and communicating with customers and management were essential to my professional development.

August 2019 – December 2019

Student IT Assistant • IT Support • Columbus State University
Information & Technology Services

As part of a class, my team and I were asked to begin the foundation for the CSU disaster recovery. During the semester, I was asked to analyze the school's process for backup, storage, and recovery. This position helped me improve my ability to work in a team, improve my presentation skills, and become more familiar with network security and infrastructure.

September 2020 - Current

IT Support Specialist • Helpdesk • Sizemore Inc.

This is a temporary position at Jefferson Energy Cooperative. I provide on-site support for 4 locations. My responsibilities with this position consist of Active Directory management, service desk management, networking and phone system maintenance, device installation and configuration, troubleshooting with Windows and several proprietary software.

Key Skills

Programming	Technologies
